Attorney Docket No.: P27943 :
For: Agent For Dissolving Dental :
Calculi And Dental Caries :

This is in response to the "Response to Decision" filed on 26 February 2010.

DISCUSSION

In a Decision mailed on 04 January 2010, counsel was advised that

Inspection of the declaration filed on 06 January 2006 reveals that it does not appear to have been made on a form supplied by the USPTO, or under Rule 4.17(iv), and that the statement required under 37 CFR 1.69(b) does not appear to have been made. Applicants are required to either provide such statement or else a new oath or declaration

In response, petitioner has provided a statement under 37 CFR 1.69(b) which attests to the accuracy of the translation of the "attached" declaration. This is construed as referring to the declaration attached to and previously filed in this application, 10/535,336. Applicants are required to promptly notify the Office of PCT Legal Administration if this interpretation is incorrect. As such, the declaration filed on 06 January 2006 is accepted.

DECISION

The declaration filed on 06 January 2006 is **ACCEPTED** for purposes of compliance with 37 CFR 1.497(a) and (b).

This application is being returned to the Office of Patent Application Processing. Its date under 35 U.S.C. 371(c)(1), (2) and (4) is **30 October 2009** (the date the English translation was filed).
